SUMMARY

Front-End Developer with hands-on experience developing responsive and modern web applications using React.js, JavaScript, HTML, and CSS. Skilled in building clean user interfaces, integrating APIs, and optimizing performance. Passionate about creating smooth user experiences and continuously improving technical skills. Seeking to join a professional team where I can contribute and grow.

EDUCATION

Bachelor of Computer and Information Sciences

2022 – 2026

Zagazig University

Zagazig, Egypt

Focused on Specialized in Computer Science with a strong emphasis on Software Engineering and Web Technologies.

PROFESSIONAL EXPERIENCE

Front-End Developement Trainee (React.JS)

Jun 2025

ITI - Information Technology Institute

Zagazig, Egypt

- Built responsive web applications using **HTML, CSS, JavaScript, and React.js**
- Developed reusable components and structured clean code architecture
- Integrated REST APIs and handled dynamic data efficiently
- Applied best practices for performance optimization and responsive design
- Collaborated in team projects and followed agile methodologies

Freelance Front-End Developer

Nov 2025

Self-Employed

- Practiced building real-world applications and freelance-style projects
- Focused on improving UI/UX and responsive design skills
- Simulated client requirements and delivered complete web solutions
- Strengthened problem-solving and debugging abilities

PROJECTS

Fixora AI – Maintenance Platform

Mar 2026

React.js | API Integration | Responsive Design

- Developed a smart maintenance platform using **React.js** for managing service requests
- Built a fully responsive and user-friendly interface for seamless user experience
- Integrated REST APIs to handle real-time data and dynamic updates
- Designed reusable components for better scalability and maintainability
- Improved application performance and optimized loading speed
- Applied clean code principles and component-based architecture

React.js Web Application | UI Animation Project

- Built an interactive website simulating AI Ahly SC with animated UI and modern design
- Displayed key information about the club including history, achievements, and details
- Developed a responsive interface using React.js with smooth animations for better UX
- Focused on UI/UX design and visual storytelling to enhance user engagement

Frontend-focused Full Stack Simulation | React.js | Mock REST API

- Built a responsive e-commerce web app for browsing and viewing products using a mock backend
- Developed UI using React.js with a focus on user experience across all devices
- Implemented authentication flow (Login/Register) using simulated JWT sessions
- Integrated mock REST APIs for products, cart, and orders functionality
- Managed state using Context API for cart and authentication

SKILLS

Front-End Development:

HTML5, CSS3, javaScript(ES6+), React.JS, Redux, Bootstrap, Tailwind css, Responsive Design, TypeScript, Context API, SASS, RESTful APIs
